

Year 4

Science;

Children will be taking part in experiments linked to our topic. They will be researching materials and their properties. Children will plan and conduct experiments linked to flooding and volcanoes.

RE & PSHE/Citizenship;

Children will be looking at a range of Religions including festivals and celebrations.
PSHE- Children will be embedded throughout the curriculum and will focus on British Values.

Languages; French

Children will continue to learn conversational French, including phrases, numbers, colours, greetings etc.

P.E; will be covered by Football and Fitness coaches and will include a range of sports and skills.

Autumn 1 Term 1

Natural Hazards

Topic;

Children will learn the locations of various natural hazards including volcanoes, earthquakes and floods on a map. They will "visit" these locations and write a diary of their experiences.

Curriculum Map

Literacy;

We will be writing narratives based on our Story called "Kensuke's Kingdom" which links to our Topic of Natural Hazards. We will also be writing information texts/leaflets relating to our topic. Children will learn how to construct a range of sentences and the meanings of vocabulary such as, *noun, adjective, verb, adverb*.

Numeracy;

Number, place value, addition and subtraction within word problems and investigations.

Computing;

Children will be learning how to use a range of computer programs including Word, PowerPoint and Scratch.

We will be focusing on keyboard skill with the aim to introduce 'touch typing'.
