Science investigation skills linked to Topic.

Curriculum Map

TOPIC-World War 2

Topic:

Geography - Where did the Wars take place?

Children will locate battles from the Great Wars, researching why battles took place where they did and countries involved in the two wars.

History - What happened?

We will be finding information about World War 2. The unit will be led by the children's questions at the start of the term. Use of research skills to explore life and events of both Wars, including why, when, how and what learning points. Children will explore their ideas through diary writing

English: Discussion and Narrative

Children will take part in discussions about important issues surrounding World War, debating using a range of techniques. They will write their discussions as formal pieces of work. They will explore a story set in WW2 and then use this as a basis for their own writing.

Numeracy:

Number and place value - Round the four dice

- read, write, order and compare numbers up to 10 000 000 and determine the value of each digit
- round any whole number to a required degree of accuracy
- solve number and practical problems that involve all of the above

Fractions

- identify the value of each digit in numbers given to three decimal places and multiply and divide numbers by 10, 100 and 1000 giving answers up to three decimal places

Measurement

- use, read, write and convert between standard units, converting measurements of length, mass and time from a smaller unit of measure to a larger
