

Equivalent Measures

100 centimetres = 1 metre

10 millimetres = 1 centimetre

30mm = 3cm
100mm = 10cm

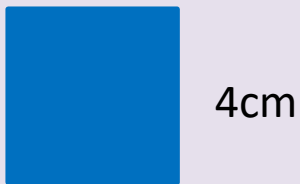

500cm = 5m
900cm = 9m

247cm	
200cm	47cm
2m	47cm
2m and 47cm	

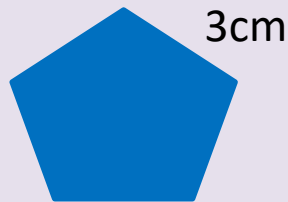

Vocabulary

centimeter	A measure of length (approximately the width of a fingernail)
cm	
meter	A measure of length (a guitar is approximately 1m in length)
m	
millimeter	A measure of length (approximately the thickness of a piece of card)
mm	
length	How long, how tall or how far apart things are
width	The distance from side to side
height	The distance from the base to the top
distance	A measure of how far objects are apart
perimeter	The distance around a 2D shape

Perimeter

Perimeter =
4cm + 4cm + 4cm + 4cm
= 16cm

Perimeter =
3cm x 5 sides
= 15cm

Perimeter =
5cm + 2cm
+ 5cm + 2cm
= 15cm
